

Required AED Equipment Checklist

The following equipment should be kept with the AED machine at all times:

- 2 sets of defibrillator chest pads (electrodes).
- Pediatric electrodes in addition to adult electrodes for locations serving children under 8 years of age.
- Disposable gloves
- 1 extra battery set, if the AED uses replaceable batteries other than long life lithium batteries.
- Cables (if your AED has removable cables)
- Maryland Public Access AED Report Forms for Cardiac Arrest –
