

MIEMSS July 1, 2019 - 2020 BLS Commercial Ambulance Equipment List

This list is not intended to provide a complete description of every item required by regulation.

For details refer to COMAR 30.09

Service: _____

Fleet ID: _____

Location: _____

Inspector: _____

List #:	# of Items	Description	Pass	Fail	Notes
General Supplies					
1	12	Sterile gauze pads (2x2 or greater) must be individually wrapped			
2	2	Multi-trauma dressings			
3	2	Clean sheets or Mylar blankets suitable for burns (adult size)			
4	6	Cold packs			
5	3	1" medical tape (must be hypoallergenic)			
6	8	Cravats (triangular bandages)			
7	6	Self-adhering gauze bandages (various sizes 2", 3", 4" and/or 6")			
8	6	Sterile trauma dressings (5" x 9" minimum)			
9	1	Sterile occlusive dressing (5" x 9" or >)			
10	1	Glucometer kit (with approved OSP)			
11	1	Box of tissues or roll of toilet paper			
12	1	Bedpan			
13	1	Urinal			
14	2	Emesis basins			
15	1	O.B. kit (clamps, bulb suction, blankets, towels, sanitary napkins, etc.)			
16	1	Maryland medical protocols (hard copy OR electronic copy)			
BLS Medications					
17		Activated charcoal (w/o Sorbitol 100 gm)			
18	1	Epinephrine auto-injectors, adult			
19	1	Epinephrine auto-injectors, child			
20	1	Epinephrine 1 mg vial with appropriate 1 mL syringe and needle, or manufacture-supplied prefilled 0.5 and 0.15 mg syringes may be substituted for epinephrine auto injector (with approved OSP)			
21	1	Naloxone 4 mg/0.1 mL kit or Naloxone 2 mg with intranasal atomizer (with approved OSP)			
22	2	Glucose paste			
23	4	Acetaminophen 160mg/5mL dose			
24	4	325 mg Acetaminophen pills or tablets (optional for ages 13+)			
25	1	Aspirin 325mg OR (4) 81mg			
PPE					
26	1	Sharps container			
27	2	Biohazard bags			
28		Boxes of gloves (3 various sizes)			
29	2	Gowns per crew member (impenetrable to blood and/or bodily fluids)			
30	1	Eye/facial shield for each crew member (may be combined w/surgical mask)			
31	2	Surgical masks per crew member			
32	1	Appropriate tuberculocidal disinfectant			
33	1	Particulate respirator N95 or greater for each crew member			
Oxygen Delivery Devices					
34	3	Adult non-rebreather masks			
35	3	Adult nasal cannulas			
36	2	Pediatric non-rebreather masks			
37	2	Pediatric nasal cannulas			
38	1	Adult (1000 - 2000 ml) hand-operated bag resuscitator w/o a pop-off valve or with a selectable pop-off valve with an oxygen inlet and reservoir tube			
39	1	Child (750 ml) hand-operated bag resuscitator w/o pop-off valve or with a selectable pop-off valve with an oxygen inlet and reservoir tube			
40	1	Infant (450 - 500 ml) hand-operated bag resuscitator w/o pop-off valve or with a selectable pop-off valve with an oxygen inlet and reservoir tube			
41	1	Adult transparent face mask			
42	1	Child transparent face mask			
43	1	Infant transparent face mask			

MIEMSS July 1, 2019 - 2020 BLS Commercial Ambulance Equipment List

This list is not intended to provide a complete description of every item required by regulation.

For details refer to COMAR 30.09

List #:	# of Items	Description	Pass	Fail	Notes
44	1	Neonatal transparent face mask			
45	1	Set of oropharyngeal airways (newborn - lg adult; min. 6 sizes)			
46	1	Set of nasopharyngeal airways (18F-34F; min. 6 sizes)			
47	1	BLS pulse oximetry device			
AED					
48	1	AED - pediatric capable			
49	1	Set of compatible adult AED pads			
50	1	Set of compatible pediatric AED pads			
51	1	Razor			
52	1	Mechanical CPR device (with approved OSP)			
Medical Supplies in Portable Kit					
53	12	Sterile gauze pads (2x2 or greater) must be individually wrapped			
54	2	2" medical tape (must be hypoallergenic)			
55	4	Cravats (triangular bandages)			
56	2	Sterile trauma dressings (5" x 9" minimum)			
57	4	Self-adhering gauze bandages (various sizes 2", 3", 4" and/or 6")			
58	1	Stethoscope (in kit or on board)			
59	1	Adult BP cuff (in kit or on board)			
60	1	Large adult BP cuff (in kit or on board)			
61	1	Pediatric BP cuff (in kit or on board)			
62	1	Bandage scissors OR rescue shears (at least 5 1/2")			
63		Exam gloves (3 various sizes)			
64	1	Penlight (narrow beam flashlight acceptable)			
65	6	Maryland triage tags & ribbons (red, yellow, green, black)			
66	1	Permanent marking pen			
Vehicle & Safety					
67		Vehicle is clean and dust/debris/OPIM free			
68		Restraint devices in working order for all seated positions in vehicle			
69		Vehicle is free of hazards			
70		All exterior & interior doors, including cabinets, open and close securely			
71	1	Narrowband med radio (programmed with MIEMSS approved template)			
72		Functional emergency warning lights			
73		Functional emergency audible warning devices (not a horn)			
74		Functional exterior lights (head, tail, brake, and signal lights)			
75		Functional interior lights (overhead, action area, etc.)			
76		Functional climate control system (seasonally appropriate)			
77		Safe tire condition (tread depth and side walls)			
78	3	Reflective road hazard triangles OR small traffic cones			
79		"NO SMOKING" sign in front and patient compartment - this is to include e-Cigarettes, vapes, or any other tobacco products			
80	1	Fire extinguisher (5 lb.) securely mounted with current tag			
81	2	Portable hand lights assigned to the unit			
82	1	ANSI/ISEA 107-2015 complaint public safety vest for each crew member			
83	1	Current Emergency Response Guidebook (ERG) (electronic copy acceptable)			
Linen Supplies					
84	1	Pillow (non-absorbent or disposable)			
85	1	Pillow case			
86	2	Sheets			
87	1	Blanket			
88	2	Towels			
Patient Immobilization and Movement					
89	1	Secure stretcher mounting bracket			
90	1	Assembled over-the-shoulder harness with 3 cross straps			
91	1	Cot with mattress, four wheels and adjustable head position			
92	1	Stair chair			
93	1	Full spinal immobilization device that meets OSHA standards			
94	2	9' straps or equivalent			

MIEMSS July 1, 2019 - 2020 BLS Commercial Ambulance Equipment List

This list is not intended to provide a complete description of every item required by regulation.

For details refer to COMAR 30.09

List #:	# of Items	Description	Pass	Fail	Notes
95	2	Padded board splints (15" x 3") (bio-safe) (OPTIONAL)			
96	2	Padded board splints (36" x 3") (bio-safe) (OPTIONAL)			
97	2	Padded board splints (54" x 3") (bio-safe) (OPTIONAL)			
98	1	Disposable head blocks			
99	2	Adjustable extrication collars			
100	1	Orthopedic stretcher			
101	1	Pelvic stabilization binder (with approved OSP)			
102	1	Adult Hare Traction splint (OPTIONAL)			
Onboard Oxygen					
103	2	High flow wall outlets			
104	1	Variable flow flowmeter capable of delivering \geq 15LPM, with a dial-down rate to a minimum of 2 LPM			
105		Accurate within 1 LPM when setting \leq 5LPM			
106		Accurate within 1.5 LPM when setting between 6 and 10 LPM			
107		Accurate within 2 LPM when setting \geq 15 LPM			
Portable Oxygen					
108		All cylinders have passed hydrostatic testing within the past 5 years			
109		All cylinders secured in a manner that meets Ambulance Manufacturers Division Oxygen Tank Retention Standard 003			
If on-board oxygen is present:					
110	1	Medical oxygen cylinder ("E", "Jumbo D" size)			
OR					
111	2	"D" size medical oxygen cylinders			
If on-board oxygen is NOT present:					
112	2	Medical oxygen cylinder ("E", "Jumbo D" size)			
OR					
113	3	"D" size medical oxygen cylinders			
On-board Suction					
114		Powered by a reliable source			
115	1	Rigid pharyngeal tip (yankauer)			
116	2	Assorted suction catheters either 6, 8, 10, or 12 F			
117	2	Assorted suction catheters either 14, 16, or 18 F			
118		Vacuum pressure $>$ 300 mmHg within 4 seconds			
119		A free air flow of at least 20 LPM at the end of the suction tube			
120	1	Wide bore tubing (ready to use/attached)			
121	1	250cc bottle of sterile water or saline			
Battery Powered Portable Suction Unit (Required for ALS)					
122		Capable of operating continuously under suction for at least 20 minutes			
123	1	Rigid pharyngeal tip (yankauer)			
124	2	Suction catheter either 6, 8, 10, or 12 F			
125	2	Suction catheter either 14, 16, or 18 F			
126		Vacuum pressure $>$ 300 mmHg within 4 seconds			
127		A free air flow of at least 20 LPM at the end of the suction tube			
128	1	Wide bore tubing (ready to use/attached)			
Res-Q-Vac (Option for BLS Units in place of Battery Powered Suction)					
129	1	Pump and canister			
130	1	Adult soft catheter			
131	1	Adult rigid catheter			
132	1	Pediatric soft catheter			
Pediatric Equipment (As Needed for Pediatric Transport)					
133	1	Pediatric immobilization device			
134	1	Pediatric Hare Traction splint			
135	1	Infant BP cuff			
136	1	Size-appropriate child restraint system compliant with Federal specification FMVSS-213 injury criteria
