Paramedic Reinstatement

Dear Provisional EMS Clinician,

Thank you for becoming a provisionally licensed EMS clinician in response to the COVID-19 pandemic. Since March, we have added more than 900 provisional EMS clinicians to Maryland's EMS workforce. On behalf of all Marylanders, we are grateful for the commitment and dedication of the skilled and compassionate people who have felt compelled to make their contributions.

We hope that you and all provisional EMS clinicians will desire to remain a part of Maryland's EMS system. To that end, I want you to know about the potential for transitioning from provisional status to full licensure in Maryland. The requirements vary, depending on licensure level and the specific criteria by which an EMS clinician qualified for provisional status. The opportunity is now available.

Since you obtained a provisional Paramedic license via reinstatement, the requirements for you to transition to full licensure status are:

- Submit an application to MIEMSS for full licensure;
 - Provide documentation that during the COVID-19 emergency you: 1) affiliated with an EMS Operational Program; **and** 2) provided EMS during the emergency;
- AND**
- Possess current active, non-provisional status as a paramedic with NREMT; and
 - Successfully complete a Protocol Review Session within 180 days after termination of the Governor's declaration of a state of emergency and catastrophic health emergency;
- OR**
- Successfully complete a MIEMSS-approved Protocol Review Session within 180 days after termination of the Governor's proclamation of a state of emergency and catastrophic health emergency;
 - Pass the NREMT Paramedic cognitive exam within 180 days after termination of the Governor's proclamation of a state of emergency and catastrophic health emergency; and
 - Pass NREMT Paramedic psychomotor exam and document current, non-provisional status registration as a NREMT Paramedic by December 31, 2021.

Further information about obtaining full licensure in Maryland may be found at www.miemss.org or by emailing licensure-support@miemss.org

If you do not pursue full licensure, your provisional status will expire on December 31, 2021.

Maryland's EMS system is fortunate to count you among its dedicated clinicians who answer more than one million calls for help each year. I hope you will want to remain engaged, and begin the process toward full licensure.

Thank you.

Theodore R. Delbridge, MD, MPH
