

Provisional EMS Clinicians must complete the requirements for full credentials by May 11, 2022 if provisional status was received prior to Aug. 12, 2021, or by Nov. 30, 2022 if the provisional status was received after Jan. 4, 2022. Provisional clinicians may continue to function while they complete these requirements. The agency is promulgating regulations to provide a path for full credentialing for new provisional clinicians and extending the time frame for individuals who obtained provisional status under the prior declared emergency.

AMENDED 2022 PUBLIC NOTICE #4

This notice is given by Clay Stamp, Chairman of the Emergency Medical Services Board and Dr. Theodore Delbridge, Executive Director of the Maryland Institute for Emergency Medical Services Systems (MIEMSS), acting pursuant to the Proclamation of Governor Lawrence J. Hogan, Jr. (the "Governor") dated January 4, 2022 proclaiming a state of emergency and a catastrophic health emergency related to COVID-19, as it may be amended or renewed from time to time, and the Order NUMBER 22-01-04-02 of the Governor dated January 4, 2022 entitled "Augmenting the Emergency Medical Services Workforce", as it may be amended from time to time, after finding that the action(s) described herein will not endanger the public health, welfare, or safety, and further that these actions will augment the emergency medical services workforce; and improve the response to the state of emergency and catastrophic health emergency.

- 1) Provisional Licenses: The procedures in COMAR 30.02.02.06 are modified to allow for provisional certificates and licenses to be issued under the requirements modified below, which shall be valid from the date of issue until November 30, 2022
- 2) Reciprocal Licensure and Certification: The EMS Board and MIEMSS are suspending the following requirements for issuance of reciprocal licensure and certification and will issue a provisional certificate or license to applicants who otherwise meet the requirements of COMAR 30.02.02.04 which shall be valid from the date of issue until November 30, 2022
 - a. The requirement in COMAR 30.02.02.04A(3) that an applicant for reciprocal certification or licensure be currently affiliated with an EMS operational program providing at least the level of services for which the individual is seeking reciprocal licensure or certification.
 - b. The requirement in COMAR 30.02.02.04C(2) that an applicant for reciprocal certification as an emergency medical technician have successfully completed a 12-hour skills refresher course approved by MIEMSS; or a protocol review and system orientation, including skills check-off, as approved by MIEMSS. Additionally, the requirements of COMAR 30.02.02.04 C are modified to allow an applicant for EMT to submit evidence of current certification as an advanced-emergency medical technician (A-EMT) in another state if that state follows the national standards or registration with the National Registry of Emergency Medical Technicians as an A-EMT.
 - c. The requirements in COMAR 30.02.02.04E(2), and (3) that an applicant for reciprocal licensure as a Paramedic successfully complete a Maryland protocol

review session; and pass a paramedic protocol examination approved by MIEMSS.

- d. The requirement in COMAR 30.02.02.04 A (3) that an applicant for EMD license be currently affiliated with an EMS operational program providing at least the level of services for which the individual is seeking reciprocal licensure.
- 3) Inactive Status: The EMS Board and MIEMSS are suspending the requirement in COMAR 30.02.02.08 that an individual who has been on inactive status for a period greater than 1 year, be affiliated with an EMS operational program, and attend a skills review session approved by MIEMSS, or conducted by an approved ALS training program. C (2) and (3)
 - 4) Reinstatement: The EMS Board and MIEMSS are suspending the requirements for reinstatement in COMAR 30.02.02.0-9 B, C, D and E and will issue a provisional certificate or license to applicants who otherwise meet the requirements of COMAR 30.02.02.09 which shall be valid from the date of issue until November 30, 2022 as follows:
 - a. Emergency Medical Response (EMR) Certification to individuals whose Maryland EMR certification expired within the past ten years.
 - b. Emergency Medical Technician (EMT) Certification to individuals whose Maryland EMT certification expired within the past ten years.
 - c. Cardiac Rescue Technician (CRT) Licensure to individuals whose Maryland CRT license has expired within the past five years.
 - d. Maryland Paramedic Licensure to individuals whose Paramedic license has expired within the past five years.
 - e. Emergency Medical Dispatchers (EMD) License to individuals whose Maryland EMD license expired within the past five years.
 - 5) Students: The EMS Board and MIEMSS are suspending the following requirements for initial certification and licensure in COMAR 30.02.02.03 and will issue a provisional certificate or license to applicants who completed their EMS education requirements after February 1, 2021 and otherwise meet the requirements of COMAR 30.02.02.03 which shall be valid from the date of issue until November 30, 2022.
 - a. The requirements in COMAR 30.02.02.03C (2) and (3) that an applicant for initial certification as an EMR applicant has successfully completed the practical certification examination administered in conjunction with the emergency medical responder course; and has passed an emergency medical

responder written certification examination administered by an EMS educational program approved by the EMS Board.

- b. The requirements in COMAR 30.02.02.03D (2), (3), (4), and (5), that an applicant for initial certification as an EMT has successfully completed an internship approved by MIEMSS, passed an emergency medical technician written certification examination approved by MIEMSS, successfully completed the emergency medical technician practical certification examination administered by MIEMSS, and be currently affiliated with an EMS operational program.
- c. The requirements in COMAR 30.02.02.03F(3), (4), (5), and (6), that an applicant for initial certification as a Paramedic submit evidence of current active status registration as a paramedic with the National Registry of Emergency Medical Technicians; successfully complete a Maryland protocol review session approved by MIEMSS; have passed a written paramedic licensure examination approved by MIEMSS, and be currently affiliated with an EMS operational program.
- d. The requirements in COMAR 30.02.02.03G (3) that an applicant for EMD license be affiliated with an EMD operational program that has been approved by the EMS Board. b. The requirements in COMAR 30.02.02.03G (5) that, within the previous 18 months prior to applying for a license, an applicant successfully complete a health care provider level cardiopulmonary resuscitation course, or if disability prevents performance of the practical portion of the exam, successful completion of the didactic portion of the course and the course written exam.

Any effect of Education Article Section 13-516 and the implementing regulations in COMAR 30.02 that is inconsistent with the foregoing is temporarily suspended.

This Notice is effective immediately and shall remain in effect until the state of emergency has been terminated and the proclamation of the catastrophic health emergency has been rescinded.

Date: January 7, 2022

Clay B. Stamp, NRP
EMS Board, Chairman

Theodore R. Delbridge, MD, MPH
MIEMSS, Executive Director
