

## Validation Rule How To: Response Time vs. Signature Date/Time for Transfer of Care

Wednesday, June 12, 2024

### Overview:

- How to validate, and compare the following two fields within eMEDS when the difference is greater than 5mins:
  - Signature Date/Time (eOther.19) when Signature Reason equals “Transfer of Care” (eOther.13)
  - Response Time Transfer of Care Complete (eTimes.12)
- Signature Grid will become validated only. Since the validation rule compares a field within a grid, the response time field cannot be validated red.

### Validation Rule

**Validation Rule Properties**  
ID: 3782

Transfer of Care Date/Time within range of Signature Transfer of Care Date/Time

Points: 1

Error Message: The date/time of transfer signature, must be within 5mins of date/time of transfer

Notes:

NEMSIS Version(s): 3.5, 3.4

Level: Local

**Warning:** Rule modifications are not applied to existing records until opened or until validation is bulk executed from the record's list page.

eOther.19 Date/Time of Signature **will flag red if:**

- eTimes.12 The difference in time between **Date/Time of Signature** and **Destination Patient Transfer of Care Date/Time** is greater than 5 minutes
- and
- eOther.13 **Signature Reason** includes **Transfer of Patient Care**
- and
- eTimes.03 **Unit Notified by Dispatch Date/Time** is after **midnight (0:00) on 07/01/2024**
- and...
- or...
